

IRIS/VFC Webinar Schedule: Nonviable Vaccine Returns in IRIS November 2016

The following schedule provides dates, times and details for IRIS/VFC webinars about managing nonviable vaccine returns in IRIS.

Course Description:

IRIS contains new functionality to assist with nonviable vaccine returns, which includes provider notifications to return nonviable vaccine including messages in IRIS and emails to the VFC Vaccine Delivery contact. These [instructions](#) can be used to complete the returns process in IRIS. Nonviable vaccines available for return are generated based on adjustments made to VFC vaccine inventory. Registration is required to attend. The following webinars are available to review the process to manage nonviable VFC vaccines.

Target Audience:

Primary and Back-Up VFC Vaccine Coordinators should attend. Other staff responsible for managing VFC vaccine inventory in IRIS should also attend. This training is not required but will provide valuable information about managing nonviable VFC vaccine returns in IRIS.

Wednesday, November 9th, 12:00 PM – 1:00 PM	REGISTER
Wednesday, November 16th, 12:00 PM – 1:00 PM	REGISTER
Thursday, November 17th, 9:00 AM – 10:00 AM	REGISTER

For questions about IRIS or this training, please call the IRIS Help Desk at 800-374-3958.

For questions about the Vaccines for Children Program or managing nonviable VFC vaccines, please call the VFC Program at 800-831-6293 x4.
